CEO MESSAGE

ASEEM GARG

Dear Participants,

It gives me great pleasure to welcome all aspirants and participants to the Dialysis Technician Diploma Program at DCDC Academy of Healthcare for the academic year. Congratulations on your decision to embark on this noble journey of becoming a healthcare professional.

With immense joy and gratitude, I present this academy as a stepping stone to your future. Drawing on over 15 years of experience in the healthcare industry, I can confidently affirm that a career in medical sciences is both demanding and deeply fulfilling. Healthcare professionals are the backbone of our society, dedicating their lives to the well-being and health of others.

The primary vision behind DCDC Academy of Healthcare is to share over a decade of knowledge, experience, and expertise with aspiring students, equipping you to excel in the field of Nephrology and beyond. Our curriculum is designed to provide technical proficiency, nurture soft skills, and foster personality development. By the time you complete this program, you will not only be a skilled dialysis technician but also a confident healthcare professional ready for a successful and rewarding career.

Moreover, upon graduation, you can join DCDC Dialysis Centers across India, setting the stage for a promising future. Our mission is to transform the passionate students of today into accomplished dialysis technicians of tomorrow. Beyond imparting technical expertise, we are committed to instilling a sense of purpose, compassion, and dedication to the service of humanity.

Together, let us embark on this journey of growth, knowledge, and purpose. Your bright future awaits—let's take the first step toward it with determination and enthusiasm.

Wishing you all the best

HOD MESSAGE

Dr. Deepak Agarwal

Dear Participants,

It is an honor to connect with you as the Principal of DCDC Academy of Healthcare and the Vice President of Clinical Operations at DCDC. I am deeply committed to ensuring that your children receive not only a world-class education but also hands-on clinical training that prepares them for a successful and rewarding career in healthcare.

At DCDC Academy, we believe in empowering our students with the skills, knowledge, and confidence needed to excel in the critical field of dialysis technology. My role as Principal allows me to personally oversee their academic journey and ensure that our programs maintain the highest educational standards. We integrate rigorous coursework with on-the-job training, enabling students to develop both technical expertise and a deep understanding of patient care.

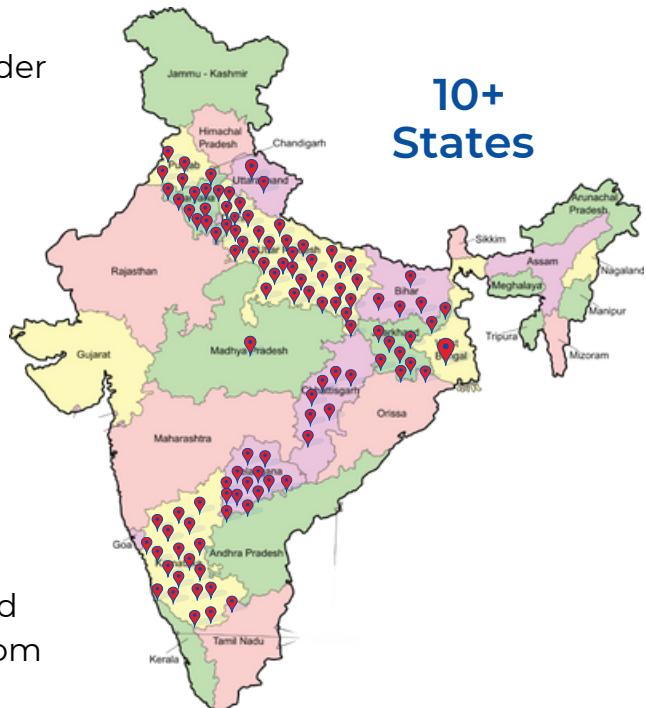

I assure you that our faculty and team are dedicated to fostering a supportive and inspiring environment where your children can thrive. Together, we are shaping the healthcare leaders of tomorrow. Thank you for trusting us to guide your children on this transformative journey.

Wishing you all the best

DCDC Kidney Care

DCDC Kidney Care is a leading dialysis care provider in India, with a network of over 200 dialysis centers spanning 10+ states.

Equipped with more than 2,000 state-of-the-art dialysis machines, DCDC has delivered over 2,000,000 dialysis sessions to date, serving over 20,000 patients, including a significant number of underprivileged individuals who benefit from free dialysis services.

For more than 15 years, DCDC has been committed to improving renal health through its Stand-Alone Clinics, In-Hospital Dialysis Units, and Public-Private Partnerships. Dedicated to saving lives and addressing the growing burden of chronic kidney disease in India, DCDC is a trusted name in accessible and affordable dialysis care.

Course Introduction

Who is a Dialysis Technician?

A Dialysis Technician is a healthcare professional trained to Dialyze the patients with kidney disease. Operate dialysis machines and ensure quality treatment of the patients undergoing dialysis.

Key Roles of a Dialysis Technician:

- **Dialysis Machine Setup & Operation** – Ensure accurate setup and safe operation of dialysis machines.
- **Patient Monitoring** – Observe vital signs and respond to complications during treatment.
- **Clinical Support** – Assist doctors and nurses throughout the dialysis process.
- **Patient Care & Communication** – Provide guidance, comfort, and emotional support to patients.
- **Hygiene & Maintenance** – Maintain infection control and ensure proper machine functioning.

Diploma in Dialysis Technology

DCDC Academy of Healthcare offers a 2 year, Diploma in Dialysis Technology to train students in performing dialysis treatments. They become skilled, confident healthcare professionals, who works as the crucial part of dialysis unit.

LIFE AT DCDC

Mansi

After joining DCDC, I'm deeply grateful for the support that made challenging tasks easier. Before DCDC, I felt directionless, but now I'm proud to be part of this journey. Thank you to my seniors for always being available, guiding me through tough situations, and exceeding client expectations. Your unwavering support and efforts have made a significant difference in my life. I'm truly honored to be part of DCDC and appreciate all the opportunities it has provided. Thank you!

Batch: 1

Md. Arif

I recently finished the dialysis course at DCDC, and I was highly impressed with the detailed training and hands-on experience it offered. The expert instructors and advanced facilities made the learning process both seamless and rewarding. This program has equipped me with the knowledge and confidence to deliver excellent care to dialysis patients. I'm grateful to DCDC for such a fantastic program!

Batch: 1

Deepanshu

I recently completed the dialysis program at DCDC and was truly impressed by the thorough training and practical experience it provided. The knowledgeable instructors and modern facilities made for a smooth and enriching learning experience. This course has given me the skills and confidence to provide top-notch care to dialysis patients. A big thank you to DCDC for offering such an exceptional program!

Batch: 1

Sahil Saini

I recently completed the dialysis course at DCDC and was thoroughly impressed by the comprehensive training and hands-on experience it offered. The expert faculty and state-of-the-art facilities created a seamless and enriching learning journey. This program has equipped me with the confidence and skills needed to deliver exceptional care to dialysis patients. Thank you, DCDC, for such an outstanding program!

Batch: 2

Aditi Chauhan

I recently completed the dialysis course at DCDC and was thoroughly impressed with the extensive training and practical experience it provided. The expert instructors and cutting-edge facilities made for an enriching and smooth learning experience. This program has equipped me with the necessary skills and confidence to provide exceptional care to dialysis patients. Thank you, DCDC, for offering such an outstanding program!
